OBJECTIVE

Dynamic software engineering student with strong problem-solving skills, analytical abilities, and effective communication, seeking an internship at PwC's Advisory Acceleration Centre. Eager to leverage academic knowledge and hands-on project experience to contribute to innovative solutions and support complex business issues from strategy to execution.

EDUCATION

B.E., Bangalore Institute of Technology
Information Science, CGPA-8.52

Expected 2025

Pre-University, Jain College
PCMC, Aggregate - 86%

2019 - 2021

SKILLS

Technical Skills & Frameworks
Core Competencies

Python, C, Java, HTML, CSS, JavaScript, SQL, Django, Flask.
Object-Oriented Programming, Data Structures and Algorithms (DSA),
Operating Systems (OS)

Soft Skills

Communication, Problem-Solving, Analytical Thinking, Adaptability,
Teamwork

PROJECTS

AATC Portal. Developed a Django-powered portal serving 10,000+ users, facilitating access to academic results, sessions, and feedback submission. Enhanced academic engagement and transparency through innovative system design and performance optimization. ([GitHub](#))

Book Delivery System. Engineered a book management system using PHP, HTML, JavaScript, and MySQL. Improved system performance and user experience through addressing complex challenges and implementing efficient solutions. Demonstrated adaptability and communication skills in collaborating with team members. ([GitHub](#))

Review System. Built a sentiment analysis application to classify restaurant reviews using NLP and machine learning models (Logistic Regression, SVM, Naive Bayes). Developed a web app using Streamlit for real-time review analysis, showcasing experience in large-scale system development and information retrieval. ([GitHub](#))

Courier Service System. Led the development of a courier application using HTML, CSS, JavaScript, and AJAX. Achieved a 30% increase in deliveries and improved customer satisfaction by streamlining parcel tracking and logistical management. ([GitHub](#))

EXPERIENCE

Full Stack Web Developer Intern
Prinston Smart Engineers

Sep 2023 - Nov 2023
Bangalore, India

- Developed and maintained the Book Delivery System, enhancing functionality and streamlining operations.
- Improved website performance and user experience through dynamic, responsive web solutions.
- Applied technical knowledge to solve real-world problems, demonstrating strong problem-solving and analytical skills.

CERTIFICATION AND TRAINING

1. [1st Place - CRASH CODE Coding Competition at BIT](#) , 2. [Python Complete DSA in Udemy](#) , 3. [Full Stack Web Development Internship at Prinston](#) , 4. [Python and Django Framework in SpringBoard](#)
