OBJECTIVE

Detail-oriented software engineering student with strong analytical skills and a passion for finance, seeking a Data Analyst role to apply expertise in data standardization, financial analysis, and report generation to deliver valuable insights for S&P Global.

EDUCATION

B.E, Bangalore Institute of Technology Expected 2025
Information Science, CGPA-8.52

Pre-University, Jain College 2019 - 2021
PCMC, Aggregate - 86%

SKILLS

Technical Skills	Python (Data Analysis), SQL (Data Management), Excel (Advanced), HTML, CSS, JavaScript, Django, Flask.
Core Competencies & Frameworks	Data Standardization, Financial Reporting, Object-Oriented Programming, Data Structure and Algorithms, Operating System.
Soft Skills	Analytical Thinking, Attention to Detail, Effective Communication, Problem Solving.

PROJECTS

AATC Portal. Engineered a Django-powered portal catering to 10,000+ students and staff, facilitating seamless access to results, sessions, and feedback submission, enhancing academic engagement and transparency. ([GitHub](#))

Book Delivery System. Developed a Book Delivery System using PHP, HTML, JavaScript, and MySQL, enabling efficient book order management and delivery tracking through secure, user-friendly interfaces. ([GitHub](#))

Review System. Developed a Sentiment Analysis app to classify restaurant reviews as positive or negative using NLP and machine learning models (Logistic Regression, SVM, Naive Bayes). Created a Streamlit web app for real-time review analysis. ([GitHub](#))

Courier Service System. Spearheaded the development of a feature-rich courier application utilizing HTML, CSS, JavaScript, and AJAX. Resulted in a 30% surge in deliveries, improved customer satisfaction, and streamlined parcel tracking, revolutionizing logistical operations. ([GitHub](#))

EXPERIENCE

Full Stack Web Developer Intern Sep 2023 - Nov 2023
Prinston Smart Engineers *Bangalore, India*

- Developed and maintained the Book Delivery System using PHP, CSS, HTML, JavaScript, and MySQL, enhancing functionality and streamlining operations.
- Led a key project that improved website performance and user experience.
- Engineered dynamic, responsive web solutions with modern technologies, ensuring seamless integration and a user-friendly interface.
- Gained experience in data standardization and generating user-centric reports.

CERTIFICATION AND TRAINING

1. [1st Place - CRASH CODE Coding Competition at BIT](#) , 2. [Python Complete DSA in Udemy](#) , 3. [Full Stack Web Development Internship at Prinston](#) , 4. [Python and Django Framework in SpringBoard](#)
