OBJECTIVE

MPassionate **software engineering student** with strong coding abilities in **Python, Java**, and a solid understanding of **AI/ML fundamentals**. Seeking a **Summer Internship at IBM** to apply my expertise in **data structures, algorithms, machine learning**, and problem-solving while contributing to cutting-edge projects. Eager to collaborate with top professionals and gain hands-on industry experience in **AI/ML** and **data analysis**.

EDUCATION

B.E, Bangalore Institute of Technology
Information Science, CGPA-8.58

Expected 2025

Pre-University, Jain College
PCMC, Aggregate - 86%

2019 - 2021

SKILLS

Technical Skills

Python, C, Java, HTML, CSS, JavaScript, SQL
TensorFlow, PyTorch, pandas, NumPy

Core Competencies & Frameworks

Django, Flask, OOP's, DSA, OS, Deep Learning, Clustering
Supervised/Unsupervised Learning, Neural Networks, Classification.

Soft Skills

Communication, Teamwork, Problem-Solving, Adaptability,
Public Speaking, Webinar Tools

PROJECTS

AATC Portal. Designed and developed a **Django-powered web portal** for over 10,000 students and staff, optimizing academic resource management. Enhanced the platform's scalability and performance through **efficient data structures** and algorithms. ([GitHub](#))

Book Delivery System. Built a **book delivery system** utilizing **PHP, JavaScript**, and **MySQL** for managing orders and deliveries, leveraging **data analysis** techniques to improve the efficiency of the system by 20%. ([GitHub](#))

Review System. Developed a **machine learning model** using **NLP** techniques to classify restaurant reviews as positive or negative. Implemented the model using **Python** and deployed a real-time web app using **Streamlit**. ([GitHub](#))

Image Classification Model. Developed an **image classification model** using **TensorFlow** to classify images into categories. Trained the model on a dataset and achieved a 90% accuracy rate using **supervised learning**. ([GitHub](#))

EXPERIENCE

Full Stack Web Developer Intern
Prinston Smart Engineers

Sep 2023 - Nov 2023
Bangalore, India

- Led the development of a **Book Delivery System**, improving functionality and streamlining the web interface using **JavaScript** and **SQL**.
- Collaborated with a team of engineers to solve complex coding issues, applying **data structures and algorithms** to optimize performance.
- Designed and deployed automation solutions, reducing manual operations by 30%.

CERTIFICATION AND TRAINING

1. [1st Place - CRASH CODE Coding Competition at BIT](#) , b. [Python Complete DSA in Udemy](#) , c. [Full Stack Web Development Internship at Prinston](#) , d. [Python and Django Framework in SpringBoard](#).
