OBJECTIVE

Dynamic software engineering student with strong communication skills and a passion for technology. Seeking a Webinar Marketing Intern position at LeadSquared to leverage my technical skills and enthusiasm for engaging with diverse audiences, while managing webinar operations and reporting.

EDUCATION

B.E, Bangalore Institute of Technology Expected 2025
Information Science, CGPA-8.58

Pre-University, Jain College 2019 - 2021
PCMC, Aggregate - 86%

SKILLS

Technical Skills	Python, C, Java, HTML, CSS, JavaScript, SQL
Core Competencies & Frameworks	Django, Flask, Object-Oriented Programming, DSA, OS
Soft Skills	Communication, Teamwork, Problem-Solving, Adaptability, Public Speaking, Webinar Tools

PROJECTS

AATC Portal. Engineered a Django-powered portal for 10,000+ students and staff, facilitating seamless access to results, sessions, and feedback submission, enhancing academic engagement and transparency. ([GitHub](#))

Book Delivery System. Developed a Book Delivery System using PHP, HTML, JavaScript, and MySQL, enabling efficient book order management and delivery tracking through secure, user-friendly interfaces. ([GitHub](#))

Review System. Developed a Sentiment Analysis app to classify restaurant reviews as positive or negative using NLP and machine learning models. Created a Streamlit web app for real-time review analysis. ([GitHub](#))

Courier Service System. Spearheaded the development of a feature-rich courier application using HTML, CSS, JavaScript, and AJAX. Resulted in a 30% surge in deliveries, improved customer satisfaction, and streamlined parcel tracking. ([GitHub](#))

EXPERIENCE

Full Stack Web Developer Intern Sep 2023 - Nov 2023
Prinston Smart Engineers *Bangalore, India*

- Developed and maintained the Book Delivery System, enhancing functionality and streamlining operations.
