OBJECTIVE

Dynamic software engineering student with strong coding skills and a passion for technology, seeking an entry-level Software Engineer position at EY. Eager to leverage academic knowledge, hands-on project experience, and a strong understanding of the software development lifecycle to contribute to innovative solutions in a fast-paced development environment.

EDUCATION

B.E, Bangalore Institute of Technology
Information Science, CGPA-8.52

Expected 2025

Pre-University, Jain College
PCMC, Aggregate - 86%

2019 - 2021

SKILLS

Technical Skills & Frameworks
Core Competencies

Python, C, Java, HTML, CSS, JavaScript, SQL, Django, Flask.
Object-Oriented Programming, Data Structures and Algorithms (DSA),
Operating Systems (OS)

Soft Skills

Communication, Teamwork, Problem-Solving, Adaptability

PROJECTS

AATC Portal. Engineered a Django-powered portal serving over 10,000 students and staff, enhancing academic engagement and transparency with real-time result access, session management, and feedback submission. ([GitHub](#))

Book Delivery System. Developed using PHP, HTML, JavaScript, and MySQL. Enabled efficient book order management and delivery tracking through secure, user-friendly interfaces, improving operational efficiency. ([GitHub](#))

Review System. Created a real-time sentiment analysis application using NLP techniques (Logistic Regression, SVM, Naive Bayes). Implemented a Streamlit web app for review classification, showcasing expertise in machine learning and data analytics. ([GitHub](#))

Courier Service System. Spearheaded development of a feature-rich courier application with HTML, CSS, JavaScript, and AJAX. Resulted in a 30% increase in deliveries and improved customer satisfaction by streamlining parcel tracking. ([GitHub](#))

EXPERIENCE

Full Stack Web Developer Intern
Prinston Smart Engineers

Sep 2023 - Nov 2023
Bangalore, India

- Developed and maintained the Book Delivery System, enhancing functionality and streamlining operations using PHP, CSS, HTML, JavaScript, and MySQL.
- Led a project to improve website performance and user experience, integrating modern technologies and best practices.
- Engineered dynamic, responsive web solutions, contributing to a better user experience and seamless integration.

CERTIFICATION AND TRAINING

- 1st Place - CRASH CODE Coding Competition, BIT
- Python Complete DSA in Udemy
- Full Stack Web Development Internship at Prinston
- Python and Django Framework
